Scaling Database Systems

Exercise Sessions | Winter Term 2026/27

Stefan Klessinger, Christoph Köhnen | Chair of Scalable Database Systems

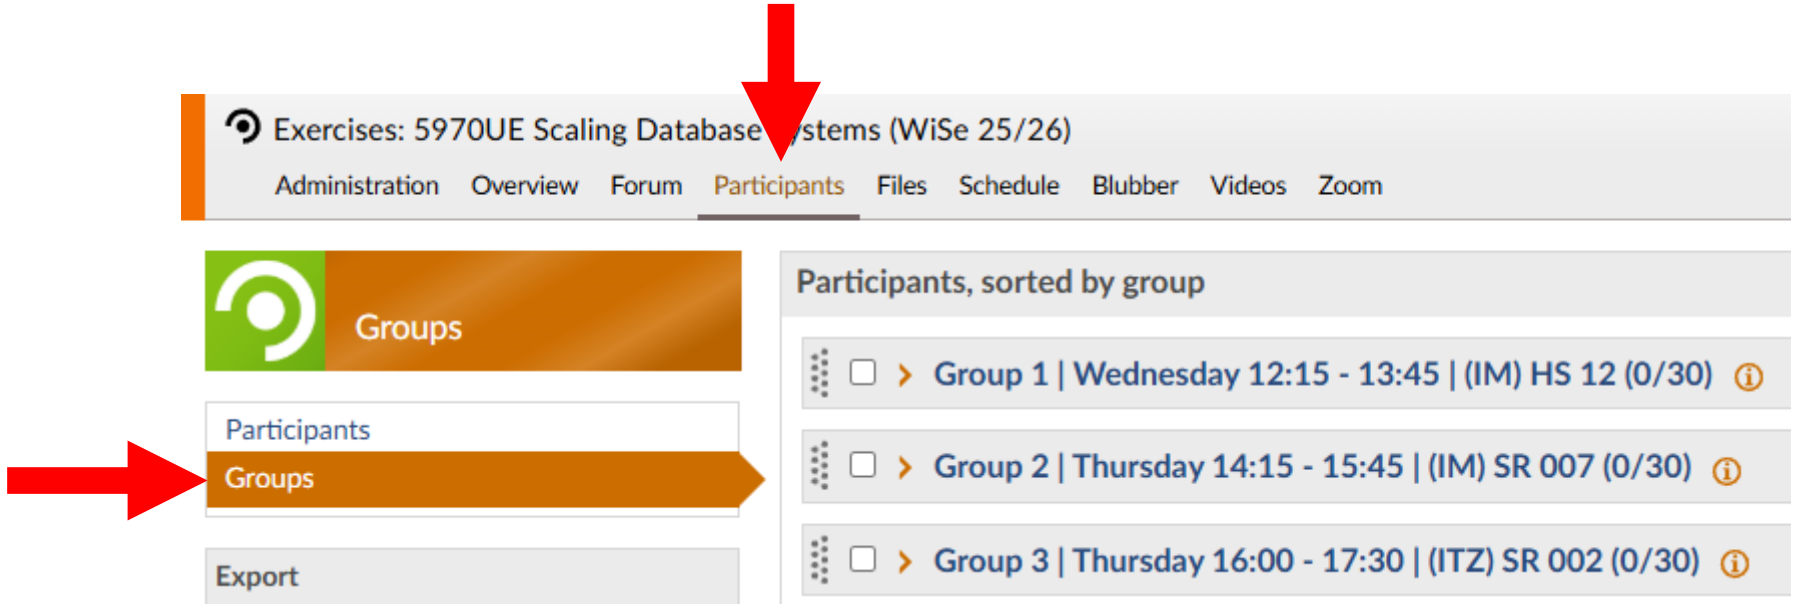

Exercise Session Groups

- 3 groups
- Each group covers the same contents
- Starting on October 21/22, 2026

Day	Time	Room
Wednesday	12:15 – 13:45	(ITZ) SR 004
Thursday	14:15 – 15:45	(ITZ) SR 001
Thursday	16:00 – 17:30	(ITZ) SR 004

Exercise Session Groups

- Please assign yourselves to one of the groups
- Sign-ups open from today (October 16, 2026) 2 pm until **October 20, 2026, 11:59 pm**
- Each group is capped at 30 students

Exercise Sheets and Sessions

- First sheet on Tuesday, October 20 at 6 pm in Stud.IP
  - Work on this sheet **during** the first exercise session
- From second sheet: If a new sheet is covered in the exercise session, the material will be available in Stud.IP at 6 pm on the Friday before
  - Work on these sheets **before** the exercise session
- **Please bring your own device to the exercise sessions!**
- For questions outside of exercise sessions:
  Please use the Stud.IP forum, so everyone can benefit from the answers

Submission System

- We will use Praktomat for all kinds of submissions (e.g., Milestones)
- For Praktomat Instructions: see “Praktomat” in Stud.IP
- Do **not** make any submission public, e.g.
  - posting code of the milestones into Stud.IP forum
  - uploading a submission in a public GitHub repository
  - …
- **Plagiarism affects the creator and the one who copies it!**
- If you have any questions about the milestones: We offer many exercise sessions just for questions or help with the milestones

Docker

- There will be a Docker container for you to test your Milestone implementations
- Install Docker…
  - **EITHER** on your own machine: https://docs.docker.com/get-started/get-docker/
  - **OR** use our server: see “Docker Server Instructions” in Stud.IP
- If you use our server, **you need to apply for access!**
  - Send an email to sds-tutorials@uni-passau.de by **October 19, 2026**
  - Subject: “Docker Server Access”

TODOs

- Choose a group from today, 2 pm until **October 20, 2026, 11:59 pm**
- Do preliminary work **before** the first exercise session
  - See “Preliminary Requirements” in Stud.IP
  - Cannot be covered during the exercise session
- Setup Docker either on your machine or on our server **before** first exercise session
- If you want to use our server, send us an email by **October 19, 2026**
- First exercise sheet available on **October 20, 2026 at 6 pm**
- Participate in one of the first exercise sessions on **October 21/22, 2026**
